## 🔗 JOB OBJECTIVE

I am a second-year university student in computer science. Passionate about IT for a long time, I decided to do my studies in Annecy to be able to transform this passion into a job. I am self-sufficient and I love learn new things. I would like to provide my skills by working in the web and mobile development.

## 📁 WORK EXPERIENCES

📅 sep 2018  
- mar 2019

### ESPACE REVETEMENTS TSD

Building works - Séez, France  
Team Project (Second year university project)

- Writing the specification document with the customer.
- Designing developing an Android application with the IONIC framework, using Visual Studio. The aim of this app is to collect all the customers information, quotes and meeting information. This application helps the user to have access at all information that he needs when he is away from his office.
- Creating the communication with the company ERP (Odoo) to collect the information

📅 mar 2014

### REGIE DES SAISIIES

Ski lifts in ski resort - Les Saisies, France  
Internship

- Assisting the employees on a ski lift
